Are you ready for a change?

Dr. Rick is a capable and respected authority on communication, change and life management, with almost three decades of experience helping individuals resolve their problems and improve their lives. He has earned the trust of people in all walks of life.

"Choosing to work with Dr. Rick was one of the smartest decisions that I have made in my life. He is both gifted and wise, and he assisted me in being more effective in my work and relationships. He taught me how to integrate the loose ends inside of myself, and I am now moving forward in greater balance and congruency. He's the real thing."
-Robert Hamburger, Financial Consultant

"You are the most gifted counselor I've ever experienced. In the hour session you spent with me, you made me laugh uproariously, you made me cry (in a good way), you took my breath away with the epiphanies you provided, and I hung up the phone feeling empowered, rejuvenated and walking on air. How do you do that?"
- Dr. Kendra Pearsall

You were able to get us to grapple with difficult issues. You stimulated us, pushed us to communicate with each other. Your willingness and encouragement was wonderful. Thank you for your big heart as well as your incredible ability and expertise.

- Alice Hardesty, City Councilor
